Tools & Technologies: GitHub, VS Code, Figma, Node.js (Learning), Express.js (Learning), MongoDB (Learning)

Specializations: Frontend Development, Responsive Web Design, UI Development, Cross-Browser Validation, Website Performance Optimization

PROFESSIONAL EXPERIENCE

Junior Web Developer | MedzLegal, Chennai | Jul 2024 – Present

- Built responsive business websites using WordPress, HTML, CSS, JavaScript, and Bootstrap for clients including Ethiqx, Laya Initiatives, and MedzLegal.
- Developed responsive UI sections, landing pages, interactive frontend components, and customized layouts using Elementor, Divi, and WPBakery.
- Improved website performance and loading speed through frontend optimization techniques, reducing page-load time by 20%.
- Implemented JavaScript interactions, animations, popup systems, and responsive UI enhancements for improved user engagement.
- Collaborated with cross-functional teams to resolve UI issues and improve website usability and performance.

Web Development Intern | Website Makers, Chennai | Oct 2023 – Nov 2023

- Developed responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Helped in frontend UI implementation, debugging, responsive testing, and usability improvements.
- Supported backend integration and added interactive frontend features.

FEATURED PROJECTS

MedzLegal — Corporate Healthcare-Legal Website

- Built a professional corporate website for MedzLegal with responsive UI design, structured service pages, and performance optimization.
- Customized layouts and interactive frontend sections using WordPress, HTML, CSS, and JavaScript based on business requirements.
- Improved website responsiveness, loading speed, and overall user experience through frontend optimization techniques.
- Integrated responsive design standards to ensure compatibility across desktop, tablet, and mobile devices.

DMK ICF Labour Union App — Member & Communication Platform

- Contributed to an AI-assisted Flutter mobile application for labour union communication and member information management.
- Worked on features including announcements, events feed, member data handling, and responsive mobile UI development.

- Supported in UI structuring, feature integration, and mobile responsiveness optimization.
- Gained hands-on exposure to Supabase for backend data management and Flutter UI workflow.

Personal Portfolio Website

- Built a fully responsive portfolio website with modern UI design, reusable React components, and smooth animations.
- Created interactive frontend sections with responsive layouts and optimized user experience.
- Implemented Framer Motion animations and reusable UI components for clean and scalable frontend architecture.
- Ensured mobile responsiveness, cross-browser compatibility, and frontend performance optimization before deployment on Vercel.
